DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-32 and 61-83, drawn to a therapeutic medical appliance, method of treating a defect, and a kit for treating a defect.

Group II, claim(s) 33-60, drawn to a device for allowing a user to deploy a plurality of therapeutic medical appliances.

Group III, claim(s) 84-87, drawn to a device for allowing a user to deploy a stent.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups II and III lack the same technical features of Group I in that the medical appliance to be delivered is not required to comprise a self-sealing membrane coupled to the first end thereof. Groups II and III lack the same technical feature in that the technical feature in Group II is longitudinally extending grooves and the technical feature of Group III is the inner tubular member being reversibly dividable into a plurality of sections at a junction between the distal and proximal end.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
